 Experience

Victoria’s Secret & Co.

DEC 2023 → NOW

Bengaluru, India

Front End Web Developer

- Lead development of high-impact ecommerce features from technical discovery to production, partnering with Product, UX, QA, Backend, and Analytics.
- Build and refine React product-page experiences that improve product discovery and purchase confidence — availability, sizing, and fulfillment interactions.
- Support experimentation-driven development: A/B-tested features with analytics integration and measurable outcomes.
- Contribute reusable frontend patterns, cleaner component logic, and improved testing coverage.

Associate Front End Web Developer

- Built customer-facing, React-based product detail experiences used across digital commerce journeys.
- Owned frontend implementation of complex features — UI behavior, state handling, edge cases, accessibility, production readiness.
- Ensured components followed accessibility best practices across desktop and mobile.

Soliton Technologies

JUL 2021 → NOV 2023

Coimbatore, India

Project Engineer

- Modernized the frontend codebase toward modular, maintainable component architecture.
- Built Python services backed by MongoDB alongside frontend work.
- Mentored engineers on HTML, CSS, JavaScript, and Node.js.

Project Intern

- Shipped a responsive dark theme and a drag-and-drop scheduling UX.
- Built a CLI tool for multi-device support, real-time data retrieval, and performance monitoring.
- Introduced frontend performance optimizations and user-friendly shortcuts.

Education

Kongu Engineering College

B.E. Computer Science · 2018 — 2022

FIRST RANK IN B.E. CSE

Sri Vidya Mandir Mat. Hr. Sec. School

HSC (Maths–Biology) 2018 · SSLC 2016

BEST STUDENT IN ACADEMIC ACTIVITIES

LANGUAGES

Tamil · English · Kannada · Hindi

Skills

FRONTEND

React · TypeScript · JavaScript · Next.js · React Native · HTML · CSS · Tailwind CSS

ENGINEERING PRACTICE

Accessibility · Web performance · Frontend architecture · Responsive design · Design systems · Analytics integration

SUPPORTING STACK

Node.js · Python · MongoDB · Git

Publications

1. Multiple Types of Cancer Classification Using CT/MRI Images Based on Learning Without Forgetting Powered Deep Learning Models

IEEE ACCESS, VOL. 11, PP. 10336–10354 · 2023

2. Forest fire and smoke detection using deep learning-based learning without forgetting

FIRE ECOLOGY 19(1), SPRINGER · 2023

3. Classification of Retinal OCT Images Using Deep Learning

IEEE ICCCI · 2022

Public datasets

Multi Cancer Dataset

130,000 images · 8 classes · 26 subclasses

Retinal OCT Image Classification — C8

24,000 images · 8 retinal conditions

Forest Fire Image Classification Dataset

4,823 images · 4 classes

Leadership & service

Vice President · National Green Corps

2016 — 2018

School garden, 1,000+ saplings donated to the Isha Foundation, and a district environmental-awareness event.

Founder · CSE Altruists; Executive Member · CSEA

2020 — 2022

Peer mentorship for junior students and delivery of departmental technical programmes.

Class Representative · Placement Coordinator

2018 — 2022

Student–faculty communication and campus placement coordination at Kongu Engineering College.

Director · Rotaract

2017 — 2018

Peer-led community service and club coordination.
